

HDARC Minutes from on-air meeting

3/21/2020

President David Ham N6SIK opened the net at 10:00 AM on the club repeater, W5ASM on 442.750+ (PI 162.2Hz).

Roll call of officers and members (on separate file 20200321_HDARC_Net_Roster)

KE5TOB needs a copy of the minutes/roster by email. N2GJ responded "Wilco."

N2GJ suggested outreach to Caravan club (for 2m, 440 and Echolink) for net.

N5YYF recounted a time when the club had a regular net for newcomers.

K6LIE mentioned that our 2m repeater in storage has IRLP and Echolink capability but no site. We also had a net on Jerry's 220 club repeater, 224.480 MHz PL 100.0 Hz IRLP Node 3285. He also recalled that the club used to offer a one-to-one "service" matching up seasoned hams and newly licensed amateurs. There was a discussion about preferable sites.

NY5L added that he gets an audiologist for the Duke City Hamfest because some hams with hearing deficiencies have trouble with HF.

WA5YUL Question: looking at 5 different logbook programs, looking for suggestions, also has an ID-51 programming cable to loan.

Suggestion to have a weekly net (exception of 3rd Saturday).

The net was closed at 11:04 MDT.

Respectfully Submitted
